

PRICING GUIDE for LASH SERVICES

LASH EXTENSIONS

- Natural Lash Set (40-60 single extensions per eye) - \$95
- Full Lash Set (70-90 single extensions per eye) - \$135
- Basic Volume Lash Set (40-50 volume extensions per eye)- \$145
- Lash Fill* - \$45

*between 2-3 weeks or 50%+ lash retention; past 4 weeks is considered a full lash set

Lash extension sets take roughly 1.5-2hrs to complete. A single lightweight lash extension is attached individually to a natural lash with a small amount of glue, so it will fall out with the natural lash as it sheds in its growth cycle. Lash fills are encouraged to keep the lash line looking full and evenly dispersed as the natural lashes shed and cause the extensions to thin.

OTHER LASH SERVICES

- Lash Lift - \$65
- Add-On Lash Tint - +\$15

With proper care, lash lifts last between 6-8 weeks. For 48hrs following your appointment, please do not fully saturate your lashes in water and avoid steam (saunas, heavy workouts, hot tubs, etc). The perm solution is safe for the eyes and does not harm the natural lash. A tint is suggested for blonde or blonde-tipped lashes immediately following the lift process.

HOW TO PREP FOR YOUR LASH APPOINTMENT

Please come to your session makeup-free and without eye-creams, moisturizers, oils, or serums applied anywhere near the eye area.

We suggest bringing earbuds to listen to music, audiobooks, podcast, etc while you are processing as appointment times last from 45min to 2hrs.
